21) I am unable to delete records, for example Labor Records from the front end. I'm using MS Office 2007. Please advice?

Thank you for informing us that you are a user of MS Office 2007. For all MS Office 2007 users, instead of using the normal command of "BACKSPACE" to delete record, please perform a "**SHIFT+BACKSPACE**". This will solve your problems. This only applied to users of MS Office 2007.
